

Customized 18650 36V 48V battery pack Rechargeable 18650 silverfish 36V 10ah electric bike battery pack 48V for electric

Our Product Introduction

for more products please visit us on enookbattery.com

Basic Information

- Place of Origin: china
- Brand Name: enook
- Certification: IC
- Model Number: Lifepo4 Battery

Product Specification

- Case: Silverfish
- Application: Electric Bike/ Bicycle/ Motorcycle/ Ebike
- Estimate Weight: Customized
- Battery Type: LiFePO4
- Color: Silver
- Motor: Customized
- Installation: Downtube Frame

Product Description

Product Description:

E Bike Battery - Product Overview

The E Bike Battery is a high-quality and reliable power source designed specifically for electric bikes, bicycles, motorcycles and other similar vehicles.

The E Bike Battery is specifically designed to be installed on the downtube frame of your electric vehicle. This ensures a secure and stable fit, keeping the battery in place during your rides. The downtube frame installation also helps to distribute the weight evenly, making your ride more balanced and comfortable.

The E Bike Battery is powered by Lithium ion battery, also known as LiFePO4 Battery. This type of battery is known for its high energy density, meaning it can store a large amount of energy in a compact size. It is also a rechargeable battery, allowing you to use it for multiple cycles without the need for frequent replacements.

Application: Electric Bike/ Bicycle/ Motorcycle/ Ebike

The E Bike Battery is versatile and can be used for a variety of electric vehicles including bikes, bicycles, motorcycles, and ebikes. It is designed to provide a reliable and efficient power source for all your electric vehicle needs.

Features

We are a lithium battery manufacturer, so we can provide you with customized services;
The capacity and dimension can customize according to your request:

- 01** Customized battery size and shell material
- 02** Customized BMS charging and discharging current
- 03** Customized connect plug and socket, connector wire

[product name] : Lithium battery case	[shell material] : Aluminum alloy
[Applicable voltage] : 48V	[Product color] : Silver black
[Scope of application] : Suitable for many brands of 48v lithium battery casings on the market	

Environmental-friendly

The E Bike Battery stands out from other batteries in the market with its exceptional features. Lithium ion battery is powerful and efficient, providing a steady and reliable source of energy for your electric vehicle. LiFePO4 Battery is known for its long cycle life, meaning it can be used for multiple cycles without losing its capacity. This makes it a cost-effective choice for those who use their electric vehicles frequently.

Moreover, the E Bike Battery is designed with safety in mind. It is built with high-quality materials and undergoes strict quality control measures to ensure its safety and durability. This gives you peace of mind while using the battery and allows you to enjoy your rides without worry.

Last but not least, the E Bike Battery is environmentally-friendly. It uses sustainable and eco-friendly materials, reducing its impact on the environment. By choosing this battery, you are not only investing in a high-quality product but also contributing to a greener and cleaner future.

In conclusion, the E Bike Battery is a top-of-the-line product that offers exceptional performance, safety, and sustainability. Its sleek design, powerful battery, and multiple applications make it the perfect choice for all your electric vehicle needs. Upgrade your ride with the E Bike Battery today!

E Bike Battery - enook

Welcome to enook, where we offer high-quality, reliable, and efficient electric bike batteries. Our E Bike Battery is the perfect choice for all your biking needs.

Brand Name: enook

Our brand, enook, is a trusted name in the industry, known for its top-notch products and excellent customer service. We strive to provide our customers with the best biking experience by offering innovative and advanced batteries.

Model Number: Lifepo4 Battery

Place of Origin: China

Our E Bike Batteries are proudly manufactured in China, a country known for its technological advancements and high-quality products. Our production facilities are equipped with state-of-the-art machinery and follow strict quality control measures to ensure the best products for our customers.

Certification: IC

Our E Bike Batteries are certified by the International Certification (IC) organization, ensuring that our products meet the highest safety and quality standards. This certification gives our customers peace of mind and confidence in our products.

Battery Type: LiFePO4

Our E Bike Battery is powered by the advanced LiFePO4 (Lithium Iron Phosphate) technology. This type of battery offers numerous advantages over traditional lead-acid batteries, such as longer lifespan, faster charging, and higher energy density.

Installation: Downtube Frame

Our E Bike Battery is specifically designed to be installed on the downtube frame of your electric bike. This installation method not only keeps the battery secure and stable but also allows for easy access and maintenance.

Upgrade your electric bike with enook's E Bike Battery and experience a smoother, more efficient, and longer biking journey. With our advanced technology and top-quality products, we are committed to providing the best biking experience for our customers. Choose enook, choose excellence!

Customization:

Customized Service for enook E Bike Battery

Brand Name: enook

Model Number: Lifepo4 Battery

Place of Origin: China

Certification: IC

Application: Electric Bike/ Bicycle/ Motorcycle/ Ebike

Key Features:

Lithium ion battery

Long-lasting and durable

Customizable size and design

High quality materials

Suitable for various electric vehicles

Efficient and reliable performance

Lightweight and compact

Easy to install and use

Perfect for daily use and long-distance travel

Choose enook for your E Bike Battery needs and experience the difference in power and reliability!

Packing and Shipping:

Packaging and Shipping of E Bike Battery

The E Bike Battery is carefully packaged to ensure safe delivery to customers. The packaging is designed to provide maximum protection during transportation and handling. Each battery is placed in a sturdy cardboard box and secured with bubble wrap to prevent any damage. The box is also labeled with handling instructions and warning signs for safe handling.

For international shipping, the E Bike Battery is packaged in compliance with all relevant regulations and standards. The battery is placed in a durable corrugated box with proper cushioning to prevent any damage during transit. The box is also marked with all the necessary shipping labels and documentation for smooth customs clearance.

Our team takes great care in preparing the E Bike Battery for shipping to ensure it arrives in perfect condition. We use reliable shipping carriers to ensure timely and secure delivery. Customers can also choose their preferred shipping method at the time of purchase.

Upon delivery, customers are advised to carefully inspect the packaging for any signs of damage. In case of any concerns, please contact our customer service team immediately for assistance.

With our careful packaging and reliable shipping methods, customers can be confident that their E Bike Battery will arrive safely and in perfect condition.

FAQ

Q1:When are you available?

A1: 24 hours online every day, messages will be replied once received.

Q2:What's your main products?

A2:Lithium batterv.Lipo batterv.LiFePO4 batterv.

battery packs, etc. For cylinder battery.

Q3: How is the quality of the products?

A3: 1. Always provide the premium authentic products, never fake.
2. Only provide A Grade cells

Q4: Do you provide the OEM&ODM service?

A4: Yes, we are experienced factory can provide OEM & ODM services.

Q5: How do we place an order?

A5: Step1. Contact us
Step2. Confirm products you need, the price and other details
Step3: We make PI(Proforma Invoice) for you to make payment
Step4: Payment finished
Step5: Payment checking by our accountant
Step5: Products packed and shipped (tracking number will be provided once shipped out)
Step6: Customer get the products and feedback

Q6: What's the lead time?

A6: 1. Sample orders: 1-3 working days
2. Bulk orders: 3-7 working days according to different quantities
3. OEM: 7-12 working days on receipt of sample confirmation
