

E Scooter Battery 48V 12Ah 20Ah strong power lithium ion batteries Enook removable electric scooter battery

Our Product Introduction

for more products please visit us on enookbattery.com

Basic Information

- Place of Origin: China
- Brand Name: enook
- Model Number: electric scooter battery 36v
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram

Product Specification

- Features: Deep Cycle Battery 48V
- Cycle Life: 1500cycle (100%DOD) 2000cycle (80%DOD) 3000cycle (60%DOD)
- Application: Electric Bike E Batterys Scooter
- Voltage: 36V
- Battery Type: Lithium Battery
- Type: Li-Ion
- Voltage/Capacity: 12V 24V 36V 48V 60V 72V 45Ah
- Certifications: CE, RoHS, UN38.3

Features

- 01 Intelligent Battery Pack Design
- 02 Environmental Friendly Chemistry, Pollution-free, non-polluting
- 03 High Energy Density, High Power Density
- 04 No fire, No explosion, No leakage
- 05 Wholly closed dust-free workshops, securing high quality
- 06 Excellent Cycle Life, chargeable up to 1000 or 6000 times

Products Description

Welcome OEM

- "Customized" battery voltage, capacity, size and case
- "Customized" BMS charging and discharging current balance function with communication protocol, etc.
- "Customized" connect plug and socket cable, waterproof
- "Customized" special battery pack for any applications

QUALITY
Automotive battery
CE, RoHS, FCC, UN38.3
and ISO9001:2008
certified

EXPERIENCE
We have been in lithium
battery pack for more
than 15 years

EQUIPMENT
We use high quality cells,
100% tested 100%
Lithium A grade

Working Voltage	Nominal	48.1	V
	Range	54.6	V ~ 40 V
Nominal Capacity	45Ah		
Battery Power	25°C	1920	Wh (100% DOD @ 0.5C rate)
	-10°C	1500	Wh (100% DOD @ 0.5C rate)
Operation Temperature Range		-10°C ~ 50°C	
Continuous Charge Current		15A	TBD
Max Charge Current		25A	TBD
Continuous Discharge Current		35A	TBD
Max Continuous Discharge Current		30A	TBD
Peak Discharge Current		50A (1st 1s)	TBD
Storage Temperature Range		-10~35°C	
Weight		53KG	
Self-discharge		30 days 5% in 25°C	
Max Continuous Discharge Current		-10°C ~ 50°C	

We will different cells for different applications.

Product Description

Product Description:

E Scooter Battery 48V: The Perfect Power Source for Your Electric Scooter

As the demand for eco-friendly transportation continues to grow, more and more people are turning to electric scooters as a convenient and environmentally friendly mode of transportation. However, the key to a smooth and efficient ride lies in the quality of the battery. That's where the E Scooter Battery 48V comes in – a high-performance battery specifically designed for electric scooters.

Voltage and Capacity

The E Scooter Battery 48V is a powerful battery that offers a range of voltage and capacity options to suit your specific needs. With a voltage range of 12V, 24V, 36V, 48V, 60V, and 72V, and a capacity of 45Ah, this battery is capable of providing enough power for your electric scooter to run smoothly and efficiently.

Type: Li-Ion

The E Scooter Battery 48V is a Lithium-Ion (Li-Ion) battery, which is known for its high energy density, lightweight, and long cycle life. This makes it the perfect choice for electric scooters as it offers a reliable and safe power source.

Features: Deep Cycle Battery 48V

One of the key features of the E Scooter Battery 48V is its deep cycle capability. This means that the battery can be discharged and recharged multiple times without affecting its performance, making it perfect for long-term use. With a deep cycle battery, you can expect a longer lifespan and better performance from your electric scooter.

Voltage: 36V

The E Scooter Battery 48V offers a voltage of 36V, which is the most common voltage used in electric scooters. This voltage provides enough power to support the motor and other electrical components of your scooter, ensuring a smooth and efficient ride.

Cycle Life

The E Scooter Battery 48V boasts an impressive cycle life, making it a reliable and long-lasting power source for your electric scooter. With a 1500cycle (100%DOD), 2000cycle (80%DOD), and 3000cycle (60%DOD) cycle life, you can expect your battery to last for years to come, even with frequent use.

Why Choose E Scooter Battery 48V?

Aside from its powerful features and performance, the E Scooter Battery 48V is also a top choice for electric scooter owners because of its reliability, safety, and environmental friendliness. With this battery, you can enjoy a smooth and efficient ride while reducing your carbon footprint.

Don't let a low-quality battery hold back your electric scooter's performance. Upgrade to the E Scooter Battery 48V and experience the difference for yourself!

Customization:

Customized Service for enook Electric Scooter Battery

Brand Name: enook

Model Number: electric scooter battery 36v

Place of Origin: China

Battery Type: Lithium Battery

Voltage/Capacity: 12V 24V 36V 48V 60V 72V 45Ah

Chemistry: Lithium-ion

Features: Deep Cycle Battery 48V

Weight: Customized

At enook, we understand that every electric scooter user has different needs and preferences. That's why we offer custom services for our electric scooter battery 36v and electric scooter battery 48v. With our expertise and advanced technology, we can provide you with the perfect battery solution to suit your specific requirements.

Our enook electric scooter batteries are known for their high quality and reliability. As a leading manufacturer in China, we take pride in our innovative lithium battery technology that ensures long-lasting performance and safety. Our electric scooter batteries are designed for deep cycle use, making them ideal for extended rides and frequent use.

With our customized service, you can choose from a wide range of voltage and capacity options, including 12V, 24V, 36V, 48V, 60V, and 72V. This allows you to select the perfect battery for your electric scooter based on its power and range needs. We also offer a 45Ah capacity, providing you with enough power to go the extra mile.

In addition, our electric scooter batteries are made with high-quality lithium-ion chemistry, ensuring efficient and stable performance. This also contributes to their lightweight design, making them easy to install and carry.

At enook, we understand that weight can be a crucial factor for electric scooter users. That's why we offer customized weight options for our batteries. Our team will work with you to determine the optimal weight for your battery, ensuring a comfortable and balanced ride.

Choose enook for a custom electric scooter battery that meets your specific needs and enhances your riding experience. Contact us now to get started.

Packing and Shipping:

E Scooter Battery Packaging and Shipping

Packaging

The E Scooter Battery will be carefully packaged to ensure safe delivery to our customers. The packaging will consist of the following

steps:

The battery will be placed in a sturdy and durable box.

Additional cushioning materials, such as foam or bubble wrap, will be added to protect the battery during transportation.

The box will be sealed with strong tape to prevent any damage or tampering.

Shipping

Once packaged, the E Scooter Battery will be shipped to our customers using a reliable and efficient shipping method. The shipping process will include the following:

The packaged battery will be loaded onto a secure and well-maintained transportation vehicle.

Our shipping partners will ensure that the battery is handled with care and delivered in a timely manner.

Customers will be provided with a tracking number to monitor the status of their shipment.

At E Scooter Battery, we take great care in packaging and shipping our products to ensure a smooth and hassle-free experience for our customers.

FAQ

Q1: When are you available?

A1: 24 hours online every day, messages will be replied once received.

Q2: What's your main products?

A2: Lithium battery, Lipo battery, LiFePO4 battery, battery packs, etc. For cylinder battery.

Q3: How is the quality of the products?

A3: 1. Always provide the premium authentic products, never fake.
2. Only provide A Grade cells

Q4: Do you provide the OEM&ODM service?

A4: Yes, we are experienced factory can provide OEM & ODM services.

Q5: How do we place an order?

A5: Step1. Contact us
Step2. Confirm products you need, the price and other details
Step3: We make PI(Proforma Invoice) for you to make payment
Step4: Payment finished
Step5: Payment checking by our accountant
Step5: Products packed and shipped (tracking number will be provided once shipped out)
Step6: Customer get the products and feedback

Q6: What's the lead time?

A6: 1. Sample orders: 1-3 working days
2. Bulk orders: 3-7 working days according to different quantities
3. OEM: 7-12 working days on receipt of sample confirmation
