

## 36V Lithium-ion E Scooter Battery for Electric Bike with Eco-Friendly Materials

Our Product Introduction

for more products please visit us on [enookbattery.com](http://enookbattery.com)

### Basic Information

- Place of Origin: China
- Brand Name: enook
- Model Number: electric scooter battery 36v

### Product Specification

- Features: Deep Cycle Battery 48V
- Type: Li-Ion
- Weight: Customized
- Cycle Life: 1500cycle (100%DOD) 2000cycle (80%DOD) 3000cycle (60%DOD)
- Voltage/Capacity: 12V 24V 36V 48V 60V 72V 45Ah
- Application: Electric Bike E Batterys Scooter
- Battery Type: Lithium Battery
- Chemistry: Lithium-ion

#### Features

- 01 Intelligent Battery Pack Design
- 02 Environmental Friendly Chemistry, Pollution-free, non-polluting
- 03 High Energy Density, High Power Density
- 04 No fire, No explosion, No leakage
- 05 Wholly closed dust-free workshops, securing high quality
- 06 Excellent Cycle Life, chargeable up to 1000 or 6000 times

### More Images

Working Voltage	Nominal	48.1	V
	Range	54.6	V --- 40 V
Nominal Capacity	45Ah		
Battery Power	25°C	1920	Wh (100% DOD @ 0.5C rate)
	-10°C	1500	Wh (100% DOD @ 0.5C rate)
Operation Temperature Range		-10°C ~ 30°C	
Continuous Charge Current		15A	TBD
Max Charge Current		35A	TBD
Continuous Discharge Current		35A	TBD
Max Continuous Discharge Current		36A	TBD
Peak Discharge Current		50A	(not for TBD)
Storage Temperature Range		-10~35°C	
Weight		533KG	
Self-discharge		30 days 95% in 25°C	
Max Continuous Discharge Current		-10°C 50°C	

We will different cells for different applications.

#### Products Description

#### Welcome OEM

- "Customized" battery voltage, capacity, size and case.
- "Customized" BMS charging and discharging current balance function with communication protocol, etc.
- "Customized" "connected plug and socket" cable waterproof
- "Customized" "special battery pack" for any applications

#### QUALITY

Automatic machine  
cell, BMS, PCB, wires,  
and standard tools  
verified

#### EXPERIENCE

We have been in lithium  
battery pack for more  
than 10 years

#### EQUIPMENT

We use high quality cells,  
100% brand plug,  
Lithium A grade

#### Battery Pack: 48V 40Ah

Welcome OEM

#### Products Display

## Product Description

### Product Description:

E Scooter Battery

The E Scooter Battery is a high-quality lithium ion battery designed specifically for electric scooters. With its advanced technology and superior performance, it is the perfect choice for powering your electric scooter.

Product Overview

**Type:** Li-Ion

**Battery Type:** Lithium Battery

**Voltage/Capacity:** 12V 24V 36V 48V 60V 72V 45Ah

**Certifications:** CE, RoHS, UN38.3

**Chemistry:** Lithium-ion

The E Scooter Battery is a rechargeable lithium ion battery that is specifically designed for use in electric scooters. It is available in various voltage and capacity options to suit different electric scooter models and user preferences. The battery is made with high-quality lithium-ion cells that provide a long-lasting and reliable power source for your electric scooter.

Key Features

**Lithium Ion Electric Scooter Battery:** The E Scooter Battery is a lithium ion battery specially designed for electric scooters. It is lightweight, compact, and provides a high energy density for a longer riding range.

**Electric Scooter Battery 36V:** This battery option is suitable for electric scooters that require a 36V power source. It provides a balance between power and energy efficiency, making it a popular choice among electric scooter users.

**Lithium Ion Electric Scooter Battery 48V:** For those who need more power, the 48V option is the perfect choice. It offers a higher voltage and capacity for a more powerful and longer-lasting ride.

**Electric Scooter Battery 60V:** This battery option is ideal for electric scooters that require a higher voltage for better performance. It provides a balance between power and energy efficiency, making it a popular choice among electric scooter users.

**CE Certification:** The E Scooter Battery has been certified by the European Union for meeting all the essential health, safety, and environmental requirements, ensuring its quality and safety.

**RoHS Certification:** This certification guarantees that the E Scooter Battery does not contain any harmful substances such as lead, mercury, and cadmium, making it environmentally friendly.

**UN38.3 Certification:** The E Scooter Battery has been tested and certified to meet the strict safety requirements for air transportation, ensuring its safe and reliable use.

With its superior features and certifications, the E Scooter Battery is the perfect choice for powering your electric scooter. It offers a reliable and long-lasting power source, while also being safe and environmentally friendly. Upgrade your electric scooter with the E Scooter Battery and experience a more efficient and powerful ride.

Recooling Battery and experience a more efficient and powerful ride.

## Products Description

### Welcome OEM

- “Customized” battery voltage, capacity, size and case.
- “Customized” BMS charging and discharging current, balance function with communication protocol, etc.
- “Customized” connect plug and socket Cable, waterproof
- “Customized” special battery packs for any applications

### QUALITY

Authoritative review  
CE, UL, SGS, FCC, ROHS,  
and ISO9001:2000  
certified

### EXPERIENCE

We have been in lithium  
battery pack for more  
than 10 years

### EQUIPMENT

We use high quality cells,  
18650 26650 21700  
Lifepo4 A grade

### Features:

## Welcome OEM

### Applications:

E Scooter Battery - enook

Brand Name: enook

Model Number: electric scooter battery 36v

Place of Origin: China

Type: Li-Ion

Certifications: CE, RoHS, UN38.3

Battery Type: Lithium Battery

Features: Deep Cycle Battery 48V

Application: Electric Bike E Batterys Scooter

The E Scooter Battery from enook is a high-quality and reliable power source for electric scooters. Designed and manufactured in China, this Li-Ion battery comes with CE, RoHS, and UN38.3 certifications, ensuring its safety and compliance with international standards.

With a voltage of 36v, this battery is specifically designed for electric scooters, providing efficient and long-lasting power for your rides. It also comes in two different capacities, 10ah and 20ah, for different power needs.

The use of lithium battery technology in this E Scooter Battery makes it lightweight and compact, perfect for portable and convenient use. It also features deep cycle capabilities, allowing for repeated charging and discharging without affecting its performance.

Whether you are using an electric scooter for commuting to work, running errands, or simply cruising around the city, the enook E Scooter Battery is the perfect power solution for your needs. Its reliable and long-lasting performance ensures a smooth ride every time.

Choose enook for your electric scooter battery needs and experience the convenience and efficiency of our high-quality products. With our commitment to quality and safety, you can trust us to power your rides and adventures.

### Customization:

Customized Services for enook E Scooter Battery

Brand Name: enook

Model Number: electric scooter battery 36v

Place of Origin: China

Voltage/Capacity: 12V 24V 36V 48V 60V 72V 45Ah

Battery Type: Lithium Battery

Application: Electric Bike E Batterys Scooter

Features: Deep Cycle Battery 48V

Chemistry: Lithium-ion

At enook, we understand that every customer has unique needs and preferences when it comes to their electric scooter battery. That's why we offer a range of customized services to ensure that you get the best battery for your specific requirements.

Our electric scooter batteries come in a variety of voltage and capacity options, including 12V, 24V, 36V, 48V, 60V, and 72V, with a generous capacity of 45Ah. This allows you to choose the perfect combination for your scooter's power needs.

As a leading brand in the industry, we use only the highest quality Lithium Battery technology to ensure long-lasting and reliable performance. Our batteries are designed to be lightweight, compact, and energy-efficient, making them the ideal choice for electric scooters.

Whether you need a battery for your electric bike, E scooter, or any other similar application, enook has got you covered. Our batteries

are versatile and can be used in a variety of electric vehicles, providing you with a seamless riding experience. One of the key features of our electric scooter battery is its deep cycle capabilities. This allows the battery to be discharged and recharged repeatedly without affecting its performance or longevity. So you can ride your scooter for longer periods without worrying about the battery's lifespan.

Our batteries are based on Lithium-ion chemistry, which ensures high energy density, fast charging times, and long-lasting power. This makes them the perfect choice for electric scooters that require a reliable and efficient source of energy.

Choose enook for your electric scooter battery needs and experience the benefits of our customized services. We are committed to delivering top-quality products and exceptional customer service to ensure your complete satisfaction. Contact us today to learn more about our products and services.

## Applications

### Our products have a very widely range of use

**A**

The battery pack can be used in electronic vehicles, tricycles, ebike, solar energy storage system, camper, cans, electronic boat, marine ship etc.,

**E-Scooter**

**Balance E-scooter**

**E-Bike**

**E-Motorcycle**

**Golf Cart**

**RC Drone**

**Solar Street Lighth**

**SolarWind Energy**

**Mobile Headlight**

**Waterpump**

**Power Tools**

**Stereo Set**

**B**

We use high quality cells, such as 18650 21700 or Lifepo4 batteries, we use different cells for different applications

**C**

We have been in lithium battery pack for more than 10 years and know how to provide you the right solution for you. Just let us know your detail application and request then we will choose the best solution for you.

## Packing and Shipping:

E Scooter Battery

### Packaging and Shipping

Our E Scooter Battery is carefully packaged to ensure safe delivery to our customers.

The battery is first placed in a sturdy cardboard box which is then wrapped in multiple layers of bubble wrap for added protection.

The box is then sealed with strong tape to prevent any damage during transit.

For international shipping, the battery is also placed in a wooden crate for extra durability.

We use trusted shipping services to deliver our batteries to customers all over the world.

Shipping fees may vary depending on the destination and shipping method chosen.

Once the battery is shipped, customers will receive a tracking number to monitor the delivery status.

For any issues with packaging or shipping, please contact our customer service team for assistance.

## PACKAGING

### PACKAGING

### Shipping by

**Professional suggestion to choose the best shipping delivery (Such as EMS DHL TNT UPS and FEDEX) for your commodities according to your demand.**

## CERTIFICATES

### OUR CERTIFICATES GIVE YOU RELIABLE SUPPORT FOR YOUR ORDERS

## FAQ

**Q1: When are you available?**

**A1: 24 hours online every day, messages will be replied once received.**

**Q2: What's your main products?**

**A2: Lithium battery, Lipo battery, LiFePO4 battery, battery packs, etc. For cylinder battery.**

### Q3: How is the quality of the products?

A3: 1. Always provide the premium authentic products, never fake.  
2. Only provide A Grade cells

### Q4: Do you provide the OEM&ODM service?

A4: Yes, we are experienced factory can provide OEM & ODM services.

### Q5: How do we place an order?

A5: Step1. Contact us  
Step2. Confirm products you need, the price and other details  
Step3: We make PI(Proforma Invoice) for you to make payment  
Step4: Payment finished  
Step5: Payment checking by our accountant  
Step5: Products packed and shipped (tracking number will be provided once shipped out)  
Step6: Customer get the products and feedback

### Q6: What's the lead time?

A6: 1. Sample orders: 1-3 working days  
2. Bulk orders: 3-7 working days according to different quantities  
3. OEM: 7-12 working days on receipt of sample confirmation
