

E Scooter 72v 40ah 45Ah 3000W Motor Lithium Battery Pack For Electric Mobility Battery

Basic Information

- Place of Origin: China
- Brand Name: enook
- Model Number: electric scooter battery 36v

Product Specification

- Features: Deep Cycle Battery 48V
- Battery Type: Lithium Battery
- Cycle Life: 1500cycle (100%DOD) 2000cycle (80%DOD) 3000cycle (60%DOD)
- Voltage/Capacity: 12V 24V 36V 48V 60V 72V 45Ah
- Voltage: 36V
- Chemistry: Lithium-ion
- Type: Li-Ion
- Application: Electric Bike E Batterys Scooter
- Highlight: 3000W Motor Lithium Battery Pack, 72v 40ah Lithium Battery Pack, 45Ah E Scooter Battery

Products Description

Welcome OEM

- ➔ "Customized" battery voltage, capacity, size and case.
- ➔ "Customized" BMS charging and discharging current balance function with communication protocol, etc.
- ➔ "Customized" connect plug and socket, cable, waterproof.
- ➔ "Customized" special battery packs for any applications

Electric Motorcycle E Scooter 72v 40ah 45Ah 3000W Motor Lithium Battery Pack For Electric Mobility Battery

Product Description:

E Scooter Battery

Looking for a high-quality battery for your electric scooter? Look no further than our E Scooter Battery, available in 48V, 36V, and 45Ah capacities.

Voltage/Capacity

Our E Scooter Battery is available in a wide range of voltage and capacity options to suit your specific needs. Choose from 12V, 24V, 36V, 48V, 60V, 72V, and 45Ah to power your electric bike or scooter.

12V 45Ah

24V 45Ah

36V 45Ah

48V 45Ah

60V 45Ah

72V 45Ah

45Ah 12V

Features

Our E Scooter Battery stands out from the rest due to its superior features:

Deep Cycle Battery: Our battery is designed for deep cycling, meaning it can be discharged and recharged multiple times without losing its capacity.

Lithium-ion Chemistry: This type of battery chemistry is known for its high energy density, making it lightweight and efficient.

High Capacity: With a capacity of 45Ah, our battery can power your electric scooter for longer periods of time, allowing you to go further on a single charge.

Long-lasting: Our battery is built to last, providing you with reliable power for your electric scooter for years to come.

Durable: Made with high-quality materials, our battery is resistant to wear and tear, ensuring it can withstand the rigors of daily use.

Eco-friendly: By using a lithium-ion battery, you are choosing a more environmentally friendly option compared to traditional lead-acid batteries.

Efficient Charging: Our E Scooter Battery charges quickly and efficiently, getting you back on the road in no time.

Versatile: Our battery is compatible with a wide range of electric bikes and scooters, making it a versatile choice for any rider.

Convenient: With its compact size and lightweight design, our battery is easy to install and transport, making it perfect for on-the-go use.

Reliable: Our battery undergoes rigorous testing to ensure it meets the highest standards of quality and performance, giving you peace of mind while riding.

Application

Our E Scooter Battery is the perfect choice for powering electric bikes and scooters. Whether you use your scooter for daily commuting or leisurely rides, our battery will provide you with the power you need.

Choose the Best E Scooter Battery for Your Ride

Don't settle for anything less than the best for your electric scooter. Choose our E Scooter Battery in 48V, 36V, or 45Ah to experience the ultimate in power, performance, and reliability. Order yours now and take your ride to the next level!

Product Name	72v battery pack 72v 15Ah 20ah 30ah 40ah 45ah 50ah 60ah 80ah 100ah 50ah lithium ion battery 72v lithium battery		
Reference Made by	GB/T18287-2000, UL1642 and IEC61960-1:2000.		
Battery Type	Lithium Iron Phosphate	Material	lithium
Part No.:	IFR 3.2V	Shape	Flexible
Voltage/Capacity	12V 24V 36V 48V 60V 72V 45Ah/200Ah/300Ah	Sizes	Customized
Weight	Approx. 4.0~40.0kg	Package	ABS/Metal Case , Customized is available
Charge	Voltage : 14.6V~87.6V	Cycle life	1500cycle (100%DOD) 2000cycle (80%DOD) 3000cycle (60%DOD)
	Current : Customized		
Discharge	Cut-off Voltage : 10V~46V		
	Current : Customized		
Warranty	One year	Delivery Time	7-20 days, depending on stock and quantity.
Applications	1) Energy Storage: UPS , backup ,power station. 2) EV : Golf trolleys , Electric scooters . 3) Solar System,Wind Energy Storage,Solar/Storage Home System, Solar Street Light. 4) Telecommunications Base Stations. 5) UPS(Uninterrupted Power Supply). 6) General Energy Storage (Such as: Back-up Power, Miner's lamp, portable power supply, digital products etc.)		
We will different cells for different applications.

Features:

Product Name: E Scooter Battery

Certifications: CE, RoHS, UN38.3

Voltage/Capacity: 12V 24V 36V 48V 60V 72V 45Ah

Chemistry: Lithium-ion

Type: Li-Ion

Application: Electric Bike E Batterys Scooter

Key Features:

- High quality electric scooter battery
- CE, RoHS, and UN38.3 certifications ensure safety and reliability
- Available in various voltages and capacities: 12V 24V 36V 48V 60V 72V 45Ah
- Lithium-ion chemistry provides long-lasting power and performance
- Li-Ion type offers lightweight and compact design
- Suitable for use in electric bikes and scooters
- Designed for easy installation and use
- Compatible with a wide range of electric scooter models
- Affordable price for a high-quality lithium ion electric scooter battery
- Provides reliable and consistent power for longer rides
- Ensures a smoother and more enjoyable ride experience
- Perfect replacement battery for worn-out or damaged electric scooter batteries
- Designed to withstand high temperatures and extreme weather conditions
- Efficient and eco-friendly alternative to traditional lead-acid batteries
- Longer lifespan compared to other battery types

Applications:

E Scooter Battery - enook

The E Scooter Battery from enook is the perfect power source for your electric bike or scooter. With a focus on reliability and performance, our lithium ion electric scooter battery is designed to meet the demands of modern transportation and provide a seamless riding experience.

Our electric scooter battery 36v is proudly made in China, using top-quality materials and advanced manufacturing techniques. As a trusted brand in the industry, enook ensures that each battery is thoroughly tested and meets international safety standards.

Application

The E Scooter Battery is specifically designed for use in electric bikes and scooters, making it the ideal choice for daily commuters, delivery services, and recreational riders. With its lightweight and compact design, it easily fits into the battery compartment of most electric vehicles, providing a reliable and powerful source of energy.

Weight

At enook, we understand that every vehicle has different weight requirements. That's why our electric scooter battery can be customized to fit your specific needs. You can choose the weight and capacity that best suits your vehicle, ensuring maximum efficiency and performance.

Cycle Life

Our E Scooter Battery boasts an impressive cycle life, ensuring long-term use without compromising on performance. With a cycle life of 1500 cycles at 100% depth of discharge (DOD), 2000 cycles at 80% DOD, and 3000 cycles at 60% DOD, you can rely on our battery to provide consistent power for your daily travels.

Type

The E Scooter Battery is a lithium ion battery, known for its high energy density and long cycle life. This type of battery is also lightweight, making it the perfect choice for electric vehicles where weight and space are crucial factors.

Voltage

Our electric scooter battery 36v is designed to provide a stable and efficient voltage output, ensuring smooth and uninterrupted rides. With a voltage of 36V, it is compatible with most electric bikes and scooters, making it a versatile and reliable choice for all your transportation needs.

Conclusion

In summary, the enook E Scooter Battery is a high-quality and reliable power source for your electric bike or scooter. Its lightweight and compact design, impressive cycle life, and compatibility with various vehicles make it a top choice for both personal and commercial use. Trust enook to provide you with the best lithium ion electric scooter battery pack for your transportation needs.

Applications

Our products have a very widely range of use

A

The battery pack can be used in electronic vehicles, tricycles, ebike, solar energy storage system, camper, cans, electronic boat, marine ship etc.,

E-Scooter

Balance E-scooter

E-Bike

E-Motorcycle

Golf Cart

RC Drone

Solar Street Lighth

SolarWind Energy

Mobile Headlight

Waterpump

Power Tools

Stereo Set

B

We use high quality cells, such as 18650 21700 or Lifepo4 batteries, we use different cells for different applications

C

We have been in lithium battery pack for more than 10 years and know how to provide you the right solution for you. Just let us know your detail application and request then we will choose the best solution for you.

Customization:

Customized Service for enook Electric Scooter Battery

Brand Name: enook

Model Number: electric scooter battery 36v

Place of Origin: China

Voltage/Capacity: 12V 24V 36V 48V 60V 72V 45Ah

Application: Electric Bike E Batterys Scooter

Cycle life: 1500cycle (100%DOD) 2000cycle (80%DOD) 3000cycle (60%DOD)

Weight: Customized

Voltage: 36V

At enook, we understand the importance of a reliable and high-performance lithium ion electric scooter battery for your electric scooter.

That's why we offer customized services to meet your specific needs and requirements.

Our Customized Services Include:

Customized voltage options: We offer a wide range of voltage options including 12V, 24V, 36V, 48V, 60V, 72V to suit your electric scooter's power requirements.

Customized capacity: Our electric scooter battery can be customized to have a capacity of up to 45Ah, ensuring longer rides without the need for frequent charging.

Customized cycle life: We offer different cycle life options to suit your usage patterns, with options of 1500 cycles at 100% depth of discharge (DOD), 2000 cycles at 80% DOD, and 3000 cycles at 60% DOD.

Customized weight: We understand the importance of weight in an electric scooter, that's why we offer customized weight options to ensure your scooter remains lightweight and easy to handle.

Customized voltage: Our electric scooter battery is available in 36V, making it a perfect fit for your electric scooter's power needs.

As a leading lithium ion electric scooter battery supplier in China, we are committed to providing high-quality and customized services to our customers. Contact us now to learn more about our customized services and to get a personalized quote for your electric scooter battery needs.

Packing and Shipping:

Packaging and Shipping for E Scooter Battery

Packaging:

The E Scooter Battery will be securely packaged to ensure safe delivery to our customers. The packaging will include the following:

Sturdy cardboard box

Protective foam padding

Bubble wrap

Instruction manual

All packaging materials used are eco-friendly and can be recycled.

Shipping:

We offer worldwide shipping for our E Scooter Battery. The shipping process will follow these steps:

Order processing: Once an order is placed, it will take 1-2 business days to process and prepare for shipping.

Packaging: The E Scooter Battery will be carefully packaged to ensure safe delivery.

Shipping: We use reliable shipping carriers to deliver our products. Shipping times may vary depending on the destination.

Tracking: Once the package has been shipped, customers will receive a tracking number to monitor the delivery status.

Delivery: The E Scooter Battery will be delivered to the customer's specified address.

If there are any issues with the delivery, customers can contact our customer service team for assistance.

For international orders, customers are responsible for any customs or import taxes that may apply. These fees will be determined by the country of destination and are not included in the product or shipping cost.

Thank you for choosing our E Scooter Battery. We strive to provide the best packaging and shipping services to ensure a smooth and satisfactory delivery experience for our customers.

Company Introduction

ChangSha Enook Technology Co., Ltd located is an outstanding solution service provider in Lithium Battery Management System(BMS) industry, focusing on the R&D, design, production and sales of Apexium DIY kits, BMS and battereis for more than 15 years. With its strength, it can provide customers with first-class software and hardware devel- opment and after-sales services.

Quality first is our principle,Satisfying all our customers is ourtenet,win-win business is our aim.Dedicated to strict qualitycontrol and thoughtful customer service,our experiencedstaff members are always available to discuss eachdetailed requirements from customer and ensure fullcustomer satisfaction.

In addition,we have obtained certificates.MSDS UN38.3MSDS, ROHS,UL.ect. All our products keep selling wellnot onlyaround China, but also inUSA, Philippines, Germany, EnglandAustralia, Russia, France and other Europen and Asia countries Fast delivery is one of our advantage,selecting a currentproducts from catalogue,or customized products,3~5days isthe normal time to prepare for the goods,OEM & ODM orderscan be acceptable.

Please don't hesitate to contact us if you have any requirement, we'll provideour best service to you.

FAQ

Q1: When are you available?

A1: 24 hours online every day, messages will be replied once received.

Q2: What's your main products?

A2: Lithium battery, Lipo battery, LiFePO4 battery, battery packs, etc. For cylinder battery.

Q3: How is the quality of the products?

A3: 1. Always provide the premium authentic products, never fake.
2. Only provide A Grade cells

Q4: Do you provide the OEM&ODM service?

A4: Yes, we are experienced factory can provide OEM & ODM services.

Q5: How do we place an order?

A5: Step1. Contact us
Step2. Confirm products you need, the price and other details
Step3: We make PI(Proforma Invoice) for you to make payment
Step4: Payment finished
Step5: Payment checking by our accountant
Step5: Products packed and shipped (tracking number will be provided once shipped out)
Step6: Customer get the products and feedback

Q6: What's the lead time?

A6: 1. Sample orders: 1-3 working days
2. Bulk orders: 3-7 working days according to different quantities
3. OEM: 7-12 working days on receipt of sample confirmation
