Basic Information

- Place of Origin: china
- Brand Name: Enook
- Model Number: Enook Battery Pack
- Payment Terms: TT PAYPAL

Product Specification

- Specification: 12V50AH
- Size: 255*165*215mm
- OEM/ODM: Acceptable
- Cycle Life: 3000-6000 Cycles @ DOD80%/25degree/0.5C
- Product Name: Enook Battery Pack
- Voltage/Capacity: Customized
- Installation: IP65
- Cooling Method: Natural Cooling
- Highlight: Customized Capacity Lithium Ion Battery Pack, Customized Voltage Lithium Ion Battery Pack, IP65 Lithium Ion Battery Pack

Product Description

Product Description:

Our lithium ion electric bike battery pack is designed to provide optimal performance in a range of operating temperatures. With an operating temperature range of -10 ~+50°C, you can rest assured that this battery pack will power your electric bike, no matter the weather conditions.

This Lithium Ion Battery Pack is available in customized voltage and capacity, ensuring that it will provide the perfect amount of power for your electric bike. With options ranging from 48v to 72v and 40ah capacity, you can choose the perfect combination for your electric bike's needs.

Brand Name	enook
Model Number	Lifepo4 Lithium Battery Packs
Battery Size	18650
Place of Origin	China
Weight	Customized
The charging ratio	50C
The discharge rate	100
Nominal Voltage	12V
OEM/ODM	Acceptable
Nominal Capacity	5Ah
Color	Black
Type	Li-Ion/lithium/lifepo4
Brand	OEM Customized
Weight	0.9KG
Features	High Power Density
Keywords	Lithium Ion /lifepo4 Battery Pack
Applcation	E-motorcycle

We understand that every customer has unique needs and requirements for their electric bike battery pack. That's why we offer

OEM/ODM services, allowing us to customize the Lithium Ion Battery Pack to your exact specifications.

The Lithium Ion Battery Pack is designed with natural cooling methods, ensuring optimal performance and safety. This cooling method is the perfect choice for anyone who wants to ensure that their electric bike battery pack operates efficiently and safely.

The Lithium Ion Battery Pack has a net weight of 9KG, making it lightweight and easy to install on your electric bike. This lightweight design ensures that your electric bike will be easy to maneuver and operate, without sacrificing performance or power.

Whether you're an avid cyclist or a casual rider, the Lithium Ion Battery Pack is the perfect power source for your electric bike. With its customizable voltage and capacity, natural cooling methods, and lightweight design, this battery pack is a reliable and efficient choice for any electric bike owner.

Features:

Product Name: Enook Battery Pack

Voltage/Capacity: Customized

Specification: 12V50AH

Working altitude: $\leq 2500\text{m}$

Installation: IP65

This Enook Battery Pack is a high-quality lithium ion electric bike battery pack, designed to provide reliable power for your electric bike. With its customized voltage and capacity, it is perfect for a wide range of electric bikes. The battery pack has a specification of 12V50AH, ensuring that it provides plenty of power for your rides. It is also designed to work at altitudes of up to 2500m, making it ideal for use in a variety of environments. Additionally, the battery pack has an IP65 rating for installation, ensuring that it is protected against dust and water.

Applications:

The Enook Battery Pack is specially designed for electric vehicles, such as electric bikes, scooters, and motorcycles. It is a perfect replacement for traditional lead-acid batteries and provides a longer lifespan, higher energy density, and lower self-discharge rate. The battery pack is available in 48v, 60v, and 72v 40ah options, making it compatible with a wide range of electric bikes and scooters. In addition to electric vehicles, the Enook Battery Pack is also suitable for various other applications. It can be used as a backup power supply for home appliances, camping, and outdoor activities. Its compact size of 255*165*215mm makes it easy to carry and store. The Enook Battery Pack is suitable for use in areas with an altitude of up to 2500m. Its natural cooling method ensures safe and reliable operation even in high-temperature environments. The battery pack is also built to withstand various harsh conditions such as shock and vibration.

Enook Battery Pack offers flexible payment terms, including TT and PayPal. Customers can choose the payment method that best suits their needs. With its high-quality performance, reliable quality, and affordable price, the Enook Battery Pack is an ideal choice for anyone looking for a reliable and efficient power source.

Customization:

Customize your Enook Battery Pack with our Product Customization Services:

Brand Name: Enook
