

Enook Portable Power Stations With RV Port And 1000W Sine Wave Output

Our Product Introduction

for more products please visit us on enookbattery.com

Basic Information

- Brand Name: enook
- Certification: CE ROHS FCC UN38 .3 MSDS
- Model Number: portable solar power station
- Minimum Order Quantity: 4

Product Specification

- Inverter Type: Pure Sine Wave
- Keywords: Outdoor Portable Emergency Power Station
- Product Size: 9.84*5.51*6.69in/ 250*140*170mm
- Battery: LiFePO4 Lithium Ion
- Working Humidity: 10-90%
- DC Output: USB-C
- Battery Type: Lithium-ion
- Special Features: Type C, Flashlight, RV Port, Cigar Lighter
- Highlight: **1000W Portable Power Stations, Sine Wave Output Portable Power Stations, Portable Power Stations With RV Port**

Product Description

Product Description:

Our Portable Power Stations utilize a Pure Sine Wave inverter type, ensuring that your connected devices receive clean, stable power that won't damage sensitive electronics. The included Lithium-ion battery is capable of delivering up to 1000W of power, with a 1000W Sine Wave output wave for maximum efficiency.

Whether you're in the great outdoors or facing an emergency situation, our Portable Power Stations are up to the challenge. With a discharge temperature range of -4-113°F/-20-45°C, you can rely on our power stations to perform even in extreme conditions. And with their compact, lightweight design, they're easy to transport and store wherever you need them.

But our Portable Power Stations aren't just for outdoor adventurers and emergency responders. They're also ideal for use as a Solar Power Station, providing clean, renewable energy for your home or business. And with their rugged, weather-resistant design, they're perfect for use as outdoor cabinet energy storage, keeping your power source safe and secure in even the harshest environments. So why wait? Invest in a Portable Power Station today and enjoy reliable, clean power wherever life takes you.

Features:

Product Name: Portable Power Stations

Model: LA1000W

Voltage: AC110~220V

DC output: USB-C

Power Source: AC Adaptor, Solar Panel, Other

Discharge temperature: -4-113°F/-20-45°C

Pure Sine Wave

Portable Power Station

Portable Power Station

Technical Parameters:

Inverter Type	Pure Sine Wave
Voltage	AC110~220V
DC output	USB-C
Product Size	9.84*5.51*6.69in/ 250*140*170mm
Working humidity	10-90%
Battery Type	Lithium-ion
Output Wave	1000W Sine Wave
Special Features	Type C, Flashlight, RV Port, Cigar Lighter
Product name	Portable Power Station

This Outdoor Cabinet Energy Storage product is a Portable Power Station that features Pure Sine Wave Inverter Type, AC110~220V Voltage, USB-C DC output, 9.84*5.51*6.69in/ 250*140*170mm Product Size, and 10-90% Working humidity. Its Battery Type is Lithium-ion and Output Wave is 1000W Sine Wave. Special Features include Type C, Flashlight, RV Port, and Cigar Lighter.

Applications:

The Portable Solar Power Station can be charged using multiple power sources, including an AC adapter, car, and solar panel, making it a versatile power source for different occasions. The pure sine wave inverter type ensures the stable and safe power supply to your devices.

Outdoor Activities

enook Portable Solar Power Station is perfect for outdoor activities such as camping, hiking, and picnics. With its compact size and lightweight design, it can easily fit into your backpack. The power station can be charged using a solar panel, making it a great power source for prolonged outdoor activities.

Emergency Power Supply

During emergencies such as power outages, enook Portable Solar Power Station can be a lifesaver. It can power up your essential devices such as lights, phones, and radios using the AC adapter or car charger. The product is also an ideal backup power source for medical equipment and other essential devices.

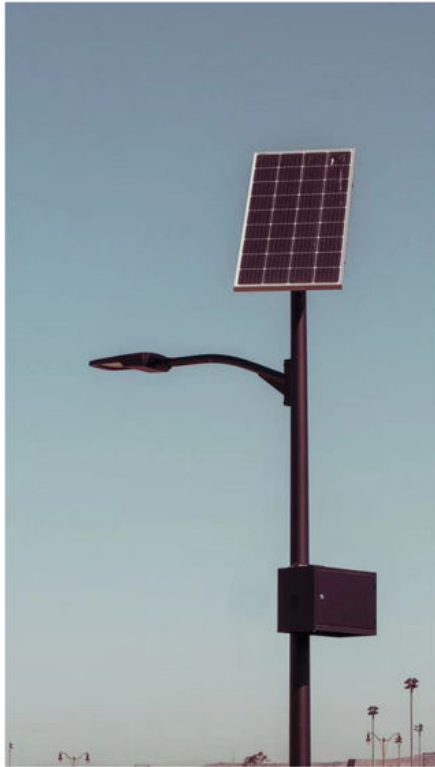

Home Power Supply

The Portable Solar Power Station can be used as a home power supply backup for small devices such as laptops, lights, and phones. It can be charged using an AC adapter or car charger, ensuring continuous power supply during extended power outages.

Conclusion

enook Portable Solar Power Station is a versatile and durable product that can be used in different scenarios. It is an essential item to have for outdoor activities, emergency power supply, and home backup power supply. With its multiple charging options, including AC adapter, car, and solar panel, you can be assured of uninterrupted power supply wherever you go.

Applications

Solar street lamp

RV energy storage

Emergency rescue

Backup power for outdoor camping

Customization:

With the CE ROHS FCC UN38 .3 MSDS certifications, you can trust our product's safety and quality. The DC output of USB-C allows you to charge your devices quickly and easily.

The minimum order quantity is 4, and we offer various customization options to fit your specific needs. Get in touch with us today to learn more about our customization services and personalize your Portable Power Station.

Support and Services:

Our Portable Power Stations are designed to provide reliable and convenient power for a variety of devices, including smartphones, laptops, and small appliances. Our technical support team is available to assist with any questions or issues you may have, including troubleshooting, firmware updates, and compatibility with different devices.

We also offer a range of services to help you get the most out of your Portable Power Station, including:

[Product training and education](#)

[Battery replacement and recycling](#)

[Repair and maintenance services](#)

[Extended warranty options](#)

Whether you're using your Portable Power Station for camping, outdoor activities, or emergency backup power, we are committed to providing the highest level of support and service to ensure your satisfaction.

Packing and Shipping:

Product Packaging:

The Portable Power Station will be packaged in a sturdy cardboard box to ensure it arrives to you safely. The box will include the power station, power cord, user manual, and any additional accessories that were purchased.

Shipping:

Once your order has been processed, the Portable Power Station will be shipped to the address provided during checkout. We offer standard shipping and expedited shipping options. Standard shipping usually arrives within 5-7 business days, while expedited shipping arrives within 2-3 business days. You will receive a tracking number via email once your order has shipped so you can track your package.
