

12V 24V 48V Lifepo4 Battery Pack With 120A Discharge Current Lithium Iron Phosphate Battery

Basic Information

- Place of Origin: china
- Brand Name: Enook
- Certification: CE ROHS FCC UN38 .3 MSDS
- Model Number: Enook Battery Pack
- Payment Terms: TT PAYPAL
- Supply Ability: 10000

Product Specification

- Terminal Type: Anderson Plug
- BMS Function: Overcharge, Overdischarge, Overcurrent, Short Circuit, Etc.
- Charge Voltage: 14.6V±0.2V
- Continuous Discharge Current: 120A
- Cycle Life: Deep Cycle Life 4000 Times, Life Span Is More Than 10 Years
- Life Cycle: It Is 2000 Times At 85% Dose, 5000 Times At 65% Dose, And 8000 Times At 40% Dose
- Battery Size: 560x300x235mm
- Product Name: Lifepo4 Battery Pack
- Highlight: 24V Lifepo4 Battery Pack, 48V Lifepo4 Battery Pack,

Product Description

Product Description:

The battery pack is designed with an IP65 installation rating, which means that it is resistant to dust and water ingress. This feature makes it suitable for use in harsh and challenging environments, ensuring that it can withstand the elements and perform reliably in any conditions.

Featuring a 12.8V 100Ah Lifepo4 Battery Pack, this Lithium Ion Battery Pack delivers exceptional performance and reliability. Its continuous discharge current of 120A and peak current of 240A (<3s) make it suitable for a wide range of applications, including electric bikes, solar panels, and other power storage solutions.

If you are looking for a 48v 60v 72v 40ah battery pack, this Lithium Ion Battery Pack is an excellent choice. Its high energy density and long cycle life make it an ideal power source for electric bike applications, delivering reliable and consistent power to keep you on the move.

Whether you are looking for a lithium ion electric bike battery pack or a reliable power source for other applications, this Lithium Ion Battery Pack is an excellent choice. With its high performance, reliability, and durability, it is sure to meet your needs and exceed your expectations.

Features:

Product Name: Lifepo4 Battery Pack

Charge Voltage: 14.6V±0.2V

Cycle life: Deep Cycle Life 4000 Times, Life Span Is More Than 10 Years

Installation: IP65

Discharge Cut-off Voltage: 10V

48v 60v 72v 40ah battery pack

48v 60v 72v 40ah battery pack

48v 60v 72v 40ah battery pack

Grade A 12v 50ah Lifepo4 Litium Ion Solar Battery Cells 12v 100ah 150ah 200ah 300ah Lithium Ion Batteries Pack

| Specification | | Parameter/ Material |
|-----------------------------|------------------------|---------------------------|
| Battery (Inside) | Material | LiFePO4 Battery |
| | Rated Voltage/Capacity | 12.8V50AH |
| 6000 Cycle Life | | 6000 Cycles @ 0.5C 80%DOD |
| Charge Voltage | | 14.6V±0.2V |
| Max Charge Current | | 25A |
| Max. Discharge current | | 25A |
| Max pulse Discharge Current | | 190A(<1.5S) |
| Size | | 229*138*208mm |
| Weight | | Appr 6.5kg |

Applications:

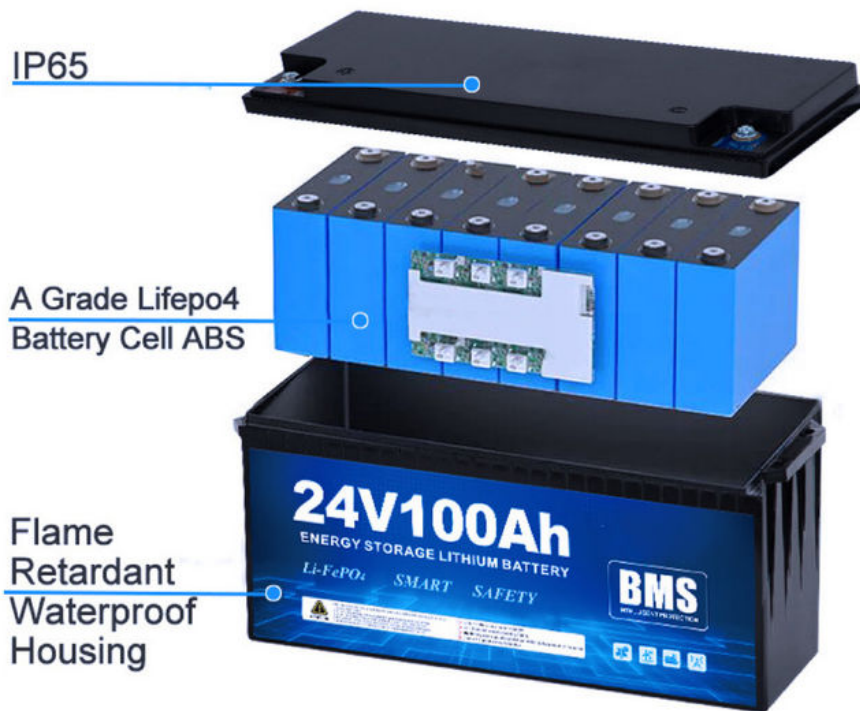

With a charge voltage of 14.6V±0.2V and discharge cut-off voltage of 10V, the Enook Battery Pack is a reliable power source for a variety of scenarios. This lithium-ion battery pack can power electric bikes, electric motorcycles, electric scooters, and other electric vehicles with ease. It can also be used for energy storage in solar energy systems, backup power systems, and off-grid power systems.

The Enook Battery Pack is available in several models, including 48v 60v 72v 40ah battery pack. The battery pack has a total energy storage capacity of 1920Wh, making it ideal for long trips or extended periods of use. The Anderson Plug terminal type ensures easy installation and a secure connection with your device.

Thanks to its IP65 installation rating, the Enook Battery Pack is resistant to dust and water, making it suitable for use in a range of environments. Whether you need a reliable power source for your electric bike, or you want to store energy for your off-grid power system, the Enook Battery Pack is a great choice.

Payment for the Enook Battery Pack is easy, with TT and PayPal payment options available. With a supply ability of 10000, you can be sure that you'll be able to get your hands on this high-quality battery pack whenever you need it.

PRODUCT COMPOSITION

Customization:

The Enook Battery Pack is manufactured in China and is certified by CE, ROHS, FCC, UN38.3, and MSDS. We offer payment terms of TT and PayPal, and we have a supply ability of 10000 units. Our battery pack comes in a size of 560x300x235mm, making it a perfect fit for electric bikes. We also offer customization services for the battery pack based on your requirements.

Our battery pack can be customized to meet your specific needs. We offer OEM/ODM services, and we can tailor the battery pack to fit your electric bike's voltage and capacity requirements. We can manufacture 48v, 60v, and 72v 40ah battery packs based on your preference.

If you are looking for a reliable and high-performance lithium ion electric bike battery pack, the Enook Battery Pack is the perfect choice for you. Contact us today for more information on our customization services.

Support and Services:

The Lithium Ion Battery Pack product technical support and services include:

- Assistance with installation and setup
- Troubleshooting and diagnosis of issues
- Software and firmware updates
- Warranty and repair services
- Technical documentation and user manuals
- Training resources for end-users and service technicians
