

IP67 Lithium Iron Phosphate Battery Golf Cart Lifepo4 Lithium Ion Battery Pack 51.2v Deep Cycle

Our Product Introduction

for more products please visit us on enookbattery.com

Basic Information

- Place of Origin: China
- Brand Name: enook
- Certification: CE ROHS FCC UN38 .3 MSDS
- Model Number: Golf Cart Battery

Product Specification

- Weight: Approx.44.7kg
- Application: Golf Carts
- Cut-Off Voltage: 40V
- Charge Voltage: 58.4V
- Rechargeable: Yes
- Peak Discharge Current:300A
- Product Name: Golf Cart Battery
- Availability: In Stock
- Highlight: lifepo4 lithium ion Golf Cart Battery,
Golf Cart Lithium Ion Battery Pack,
IP67 Lithium Iron Phosphate Battery

Product Description

Product Description:

The Lithium Ion Golf Cart Battery is made of Lithium Iron Phosphate, a highly efficient and safe technology that significantly outperforms traditional lead-acid batteries. This battery is equipped with grade A automatic cells that ensure superior performance and long-lasting power.

The Lithium Ion Golf Cart Battery is available in customized sizes to fit any golf cart's requirements. This battery has a continuous discharge current of 150A, which allows the golf cart to accelerate quickly and easily maneuver through any terrain.

With a cycle life of over 4000 cycles, the Lithium Ion Golf Cart Battery is a durable and reliable choice for golf cart owners. This battery's long lifespan ensures that you will not have to replace it frequently, which can save you money in the long run.

The Lithium Ion Golf Cart Battery is an ideal choice for golf cart owners who want to upgrade their battery's performance. This battery pack is designed to provide consistent power that can meet the demands of any golf course.

If you are looking for a high-quality golf cart battery that can provide reliable power for your golf cart, the Lithium Ion Golf Cart Battery is the perfect choice. Its Lithium Iron Phosphate technology, customized sizes, and grade A automatic cells make it a superior choice over traditional lead-acid batteries.

LiFePO4 Golf Cart Battery

Applications:

This Golf Cart Battery is available in stock, making it a convenient option for your power needs. Weighing approximately 44.7kg, this lightweight battery pack can be easily installed in your golf cart, adding to its convenience. The cut-off voltage of this Lithium Ion battery is 40V, making it a highly efficient and reliable power source.

The enook Golf Cart Battery is perfect for a range of applications and scenarios. It is an ideal power source for golf carts, providing long-lasting power supply to help you cover more distance with ease. This battery pack is also a great option for electric vehicles, bikes, and scooters. It can be used for outdoor activities such as camping, hiking, and boating as well.

The 72v battery pack is suitable for a wide range of applications such as electric toys, electric tools, and emergency power supplies. Its compact design and lightweight nature make it easy to carry around and use. Whether you need to power your golf cart or any other electric vehicle, enook Golf Cart Battery is perfect for you.

In conclusion, if you are looking for a reliable and efficient power source for your golf cart or any other electric vehicle, enook Golf Cart Battery is the perfect product for you. With its lightweight and compact design, high capacity, and long-lasting output, this Lithium Ion battery pack is a must-have for all your power needs. Order now and enjoy the convenience of a powerful and efficient power source!
